Developer of Uniqueness

COMPANY PROFILE

www.interratechnology.com

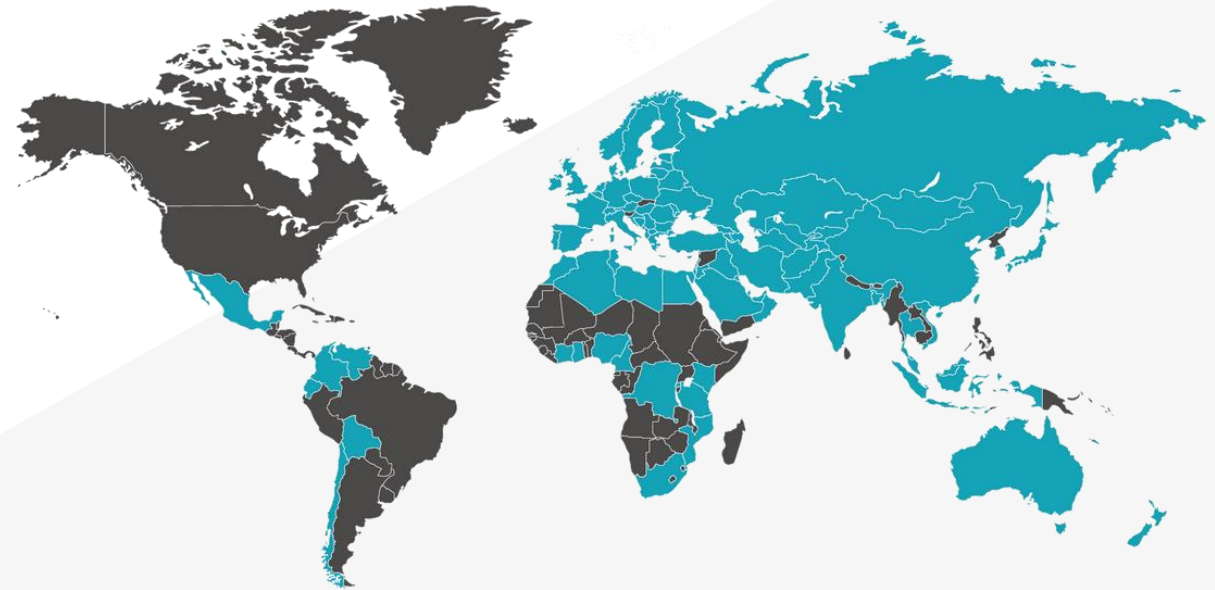

A man with a beard, wearing a white lab coat, is holding a tablet and looking at the screen. He is standing in front of a rack of electronic equipment, which appears to be a control panel or a server rack. The equipment has various components, including screens and buttons, and is labeled with numbers like '18'. The background is slightly blurred, focusing attention on the man and the equipment.

WHO IS INTERRA?

INTERRA is the pioneering smart home technology leader developing KNX-based software and hardware solutions with its R&D teams experienced in the field of smart building automation by aiming for each product to be unique and comply with high-quality standards. With a history of uniqueness and innovativeness of 16 years, Interra's global success is driven by around 150 talented engineers and employees in over 75 countries.

SPECIAL SOLUTIONS FOR ALL PROJECTS

Residential Solutions

INTERRA provides cost-effective full automation solutions to residential projects including the concierge communications and individual automation of thousands of apartments.

Hotel Solutions

INTERRA provides alternative system solutions with KNX – DALI – DMX – EIO full control of a hotel project with online and offline systems. In addition to comfort, it also prioritizes energy efficiency and quality service in hotel solutions.

Commercial Solutions

INTERRA Solutions, that can manage themselves, reduce energy and maintenance costs, and offer many advantages in office and public integrations.

We established INTERRA ACADEMY in 2020 to improve the knowledge and control of the technical side of our dealers around the world to provide better services and solutions to our customers.

The main aim of Interra Academy is to keep our dealers active and teach them any improvements of the products, and give them information about the upcoming ones.

INTERRA PRODUCT TRAINING

We periodically organize training for our partners through online or offline training classes to keep them informed about all the features of Interra products.

PROJECT BUSINESS SUPPORT

We work closely with our partners for all projects to be sure the right Interra solutions are provided to the projects with the most possible cost-efficiency.

Help Desk

Support with product updates, errors and faults, connections and other technical questions about products for our customers via the helpdesk. Contact the helpdesk at help@interra.com.tr for technical support.
